

INVISIBLE INDUCTION COOKING TECHNOLOGY

**“AN
EXTRAORDINARY
COOKING
EXPERIENCE ”**

**YOUR
TRUSTED
GLOBAL
PARTNER**

Dex Cooktop, with its wide sales and service network spread all over the world, is proud of being a reliable ceramic surface induction cooker manufacturer.

It carries the future technology to your kitchens with its standard and custom innovative production products.

**ARCHITECTURAL
CATALOG FOR
PROFESSIONALS**

Are you ready for a culinary experience beyond your imagination?

In this catalog, you will discover our functional and stylish products that we have created with a modern design approach, combining innovative induction kitchen technologies with the unique visuality and functionality of ceramic surfaces.

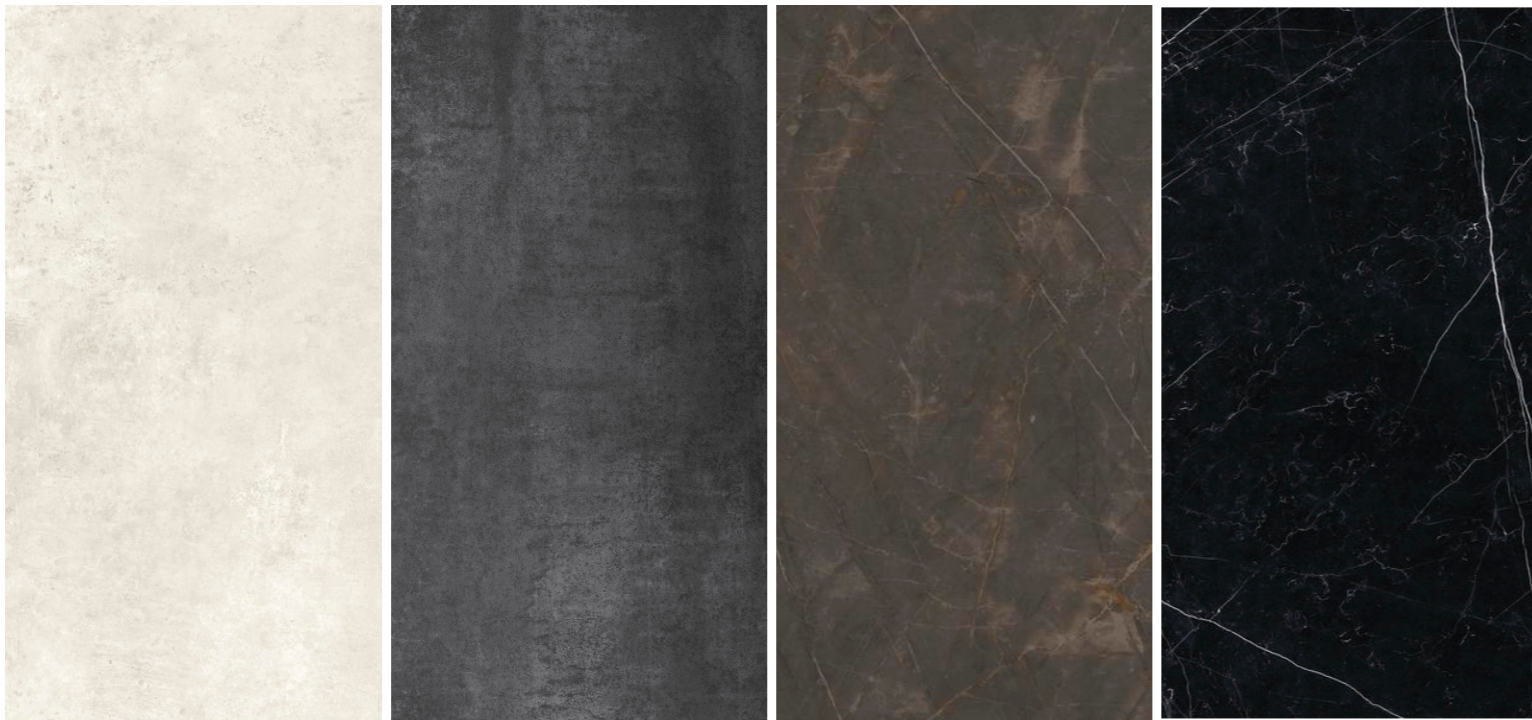

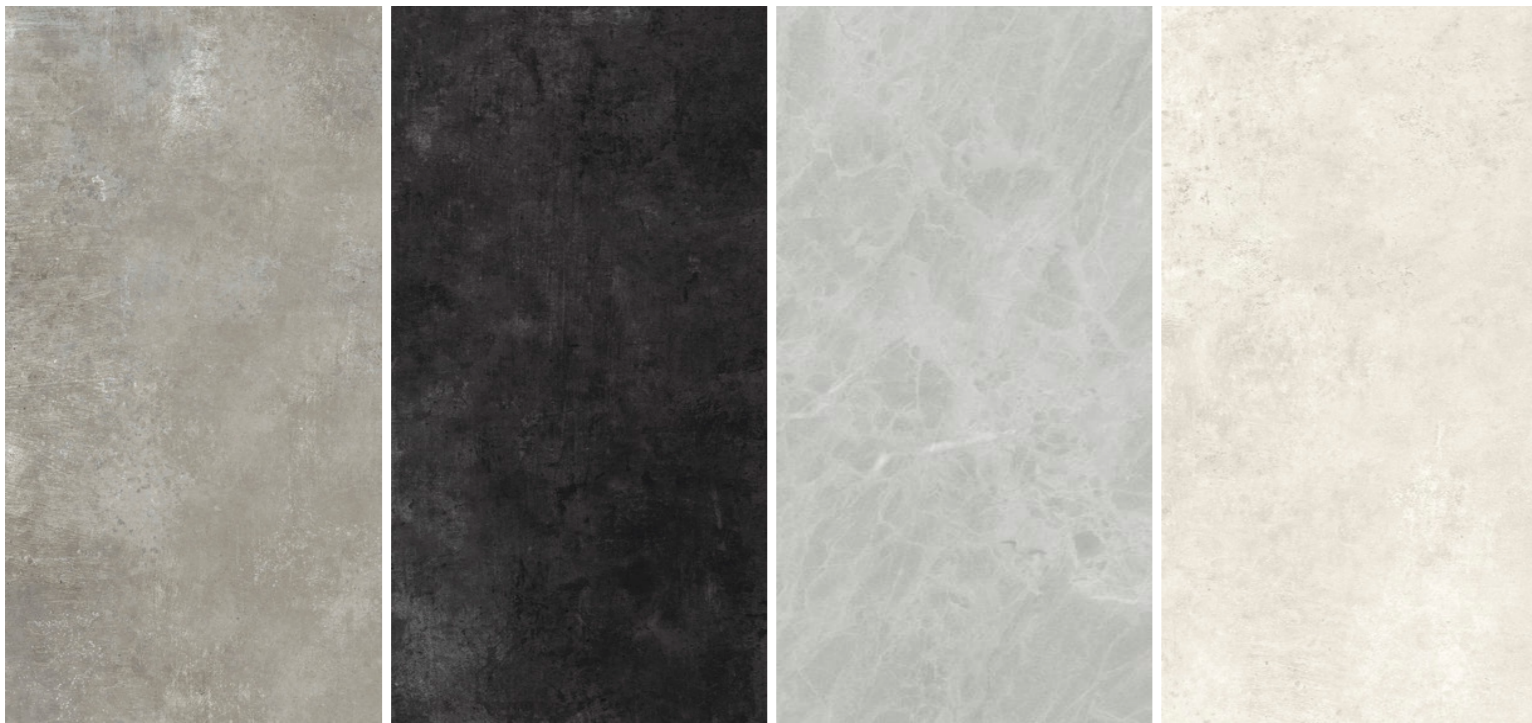

We introduce you not only to a kitchen equipment, but also to the culinary culture of the future.

You will easily access all our solutions and any technical information you need.

RENEWABLE ENERGY FOR A+ SAVE

Our renewable energy supply system allows us to create tangible economic and environmental improvements for our manufacturing facility. However, the induction technology we have developed allows us to develop a product range with A+ efficiency. Within the scope of sustainable energy, it leaves natural gas and all solid fuel sources behind and works with electricity modernization.

WHY YOU SHOULD CHOSE CERAMIC SURFACE

Our ceramic series products, ranging from 60x120 cm to 360x120 cm, will add a new dimension to your kitchens with our standard or special design (architecture-supported) countertops.

EASY TO CLEAN

Does not require special products or care for cleaning. Stains are removed with hot water or any detergent on the market.

HIGH TEMPERATURE RESISTANCE

Its special production technology makes it highly resistant to high temperatures.

HYGIENIC, ANTIBACTERIAL SURFACE

Dex Cooktop have a non-porous surface so germs and bacteria cannot flourish or be in direct contact with the food.

SCRATCH RESISTANCE

Only diamonds can scratch the surface of Dex Cooktop.

STAIN PROOF

Because the surfaces of Dex Cooktop are made of ceramic, they are not damaged by chemical agents such as oil, vinegar, citrus fruits, wine, solvents, detergents, hydroxide, bleach, coffee, etc.

EASY TO TRANSPORT AND ASSEMBLE

Because of their weight 11,3 kg/m² Dex Cooktop are the lightest on the market. The material thickness is between 0.4 mm and 1.2 mm. They can be handled easily by marble mason, installers and professionals of the natural stone industry.

CERAMIC SURFACES ADVANTAGES

WE LEARNED FROM NATURE

Learning from nature is a tradition that mankind has maintained since its existence. Imitating these mechanisms to improve life and the spaces used can provide efficient and effective solutions, because as it is the nature which is the basis of everything.

DURABLE ENOUGH

Ceramics are designed with the superior technology in accordance with different climatic conditions. It maintains its stability against sudden changes in temperature and frost.

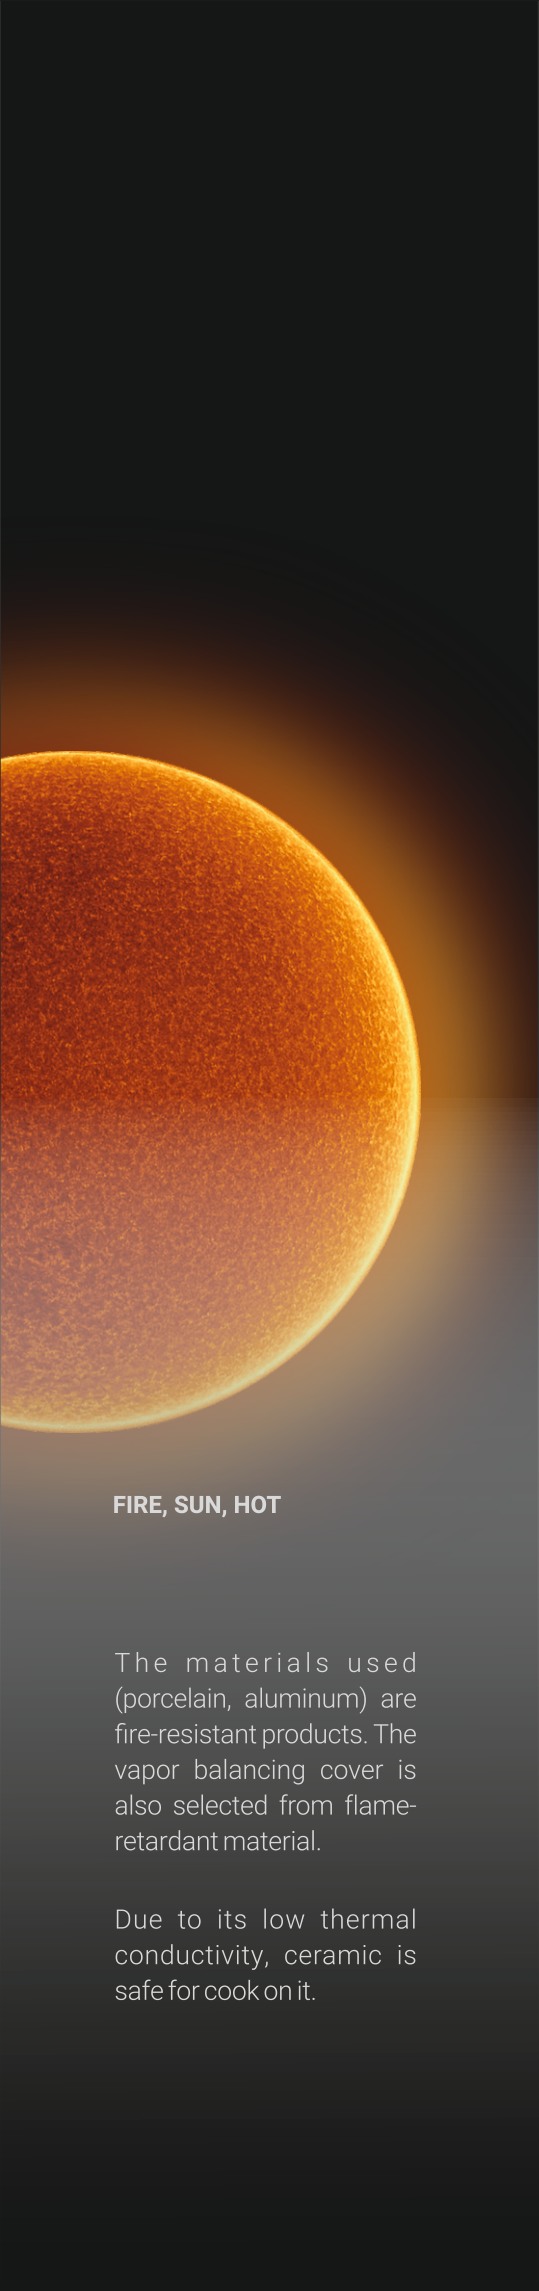

CLEAN

It does not hold dirt against ink, oleophobic to food and oil stains.

LIKE DIAMOND

Ceramic surfaces, which stand out with their scratch resistance feature, make a difference compared to other facade products with Mohs value of 6.

FIRE, SUN, HOT

The materials used (porcelain, aluminum) are fire-resistant products. The vapor balancing cover is also selected from flame-retardant material.

Due to its low thermal conductivity, ceramic is safe for cook on it.

CHEMICALS

By the protective glaze layer and porcelain structure on the ceramic surface, it is also resistant to the most of the chemicals.

Residual Heat Indicator

Dex Cooktop induction hobs safety is super easy. Residual heat indicator feature avoids you to get burned by a hot cooking surface. Simply when the letter "H" appears on the display, indicators Means that the surface is hot, do not touch.

Automatic Safety Switch Off

Dex Cooktop induction hobs gives you complete peace of mind with automatic safety switch off feature. It automatically turns off any cooking zones if you have forgotten to turn it off or if there's no change in the operation after a certain period.

Child Safety Lock

Dex Cooktop induction hobs guarantees the maximum safety for tiny hands. Child Safety Lock Feature let you avoid kids for activating the cooking surface simply touching a button.

9 Stage Power Options

Dex Cooktop hobs have smooth, ergonomic, flat cooking surface. So, it does not get too hot and food does not burn onto its surface as other electric cooktops. Therefore, it is super easy to clean.

Triple Ring Zone

Dex Cooktop triple ring zone, helps you to enlarge your cooking space and gives you the freedom to prepare multiple dishes or use larger pans.

Timesaving

Dex Cooktop induction cooktops boost functions designed for efficient heating to quickly reach desired temperatures to save time. It is 40% faster than traditional cookers.

Easy to Clean

Dex Cooktop hobs have smooth, ergonomic, flat cooking surface. So, it does not get too hot and food does not burn onto its surface as other electric cooktops. Therefore, it is super easy to clean.

Eco Friendly

Dex Cooktop has no flame and Co2 emission it Earth friendly.

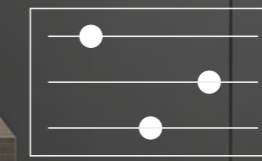

Double Ring Zone

Dex Cooktop double ring zone, helps you to enlarge your cooking space and gives you the freedom to prepare multiple dishes or use larger pans.

Pan Sensor

Dex Cooktop induction cooktops pan sensor, recognises the dimension of the cookware and it determines the size of the cooking zone accordingly. If the pan is removed, the control panel indicator will flash and remain inactive until the pan is detected.

Slide Control

Dex Cooktop sliding control panels enables fast and precise control of your cooking temperatures. Simply glide your finger across the LED display to adjust the heat level with one easy motion.

User Friendly Interface

Dex Cooktop hobs have classic, uncomplicated touch screen interface design that is very easy to use. It is also designed for maximum functionality by considering every single detail.

BOOSTER FLEXI ZONES

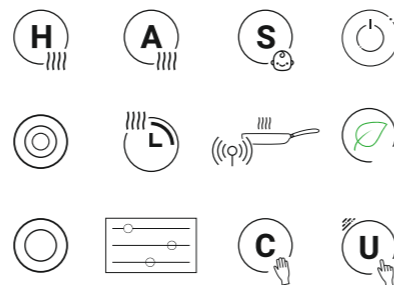

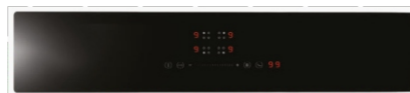

6FZ3000D

6 BOOSTER FLEXI ZONES

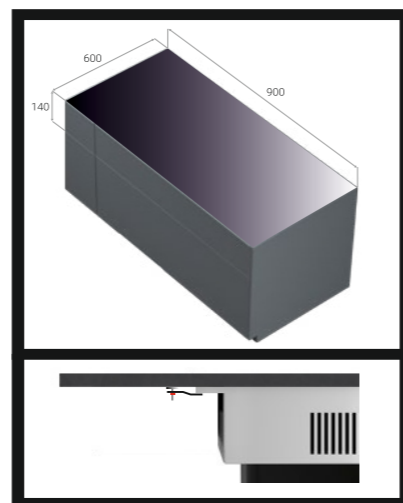

- 2-digit timer
- 9-stage power settings
- Automatic safety switch off
- Residual heat indicator
- Child safety lock
- Pan sensor
- Slider control
- Flexi Zone
- 6 Booster
- Independent slider control
- Touch control
- Hob-Hood connection

HIDDEN TOUCH CONTROL PANEL

MINIMUM MONTAGE DIMENTIONS

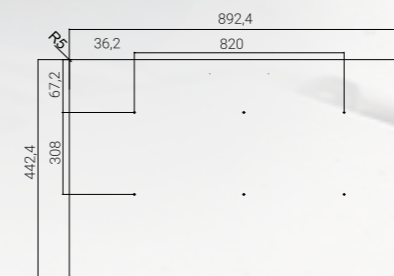

TECHNICAL SPECIFICATIONS

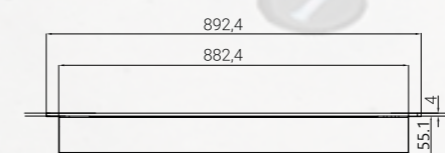

- Voltage: 180-240 V
- Frequency: 50-60 Hz
- Inductor Diameters:
 - 280mm 2300W - Power Booster 3000W
- Power Levels:1 - 9 P
- Certification & standarts
 - EUROPEAN CERTIFICATION: CE
 - Applicable Standart:
 - UNE-EN 60335-2-6--UNE-EN 60335-1
